

Guides for Presenting Authors

As a paper presenter, please check the online program before you leave for Chulalongkorn University (CU), Bangkok, Thailand for possible updates. When you pick up your registration pack at CU, please check the printed program and addendum for possible last-minute changes in your session. Again, no matter you are speakers, session chairs, or pure attendees, you are highly welcomed to participate in all sessions of the conference. All staff of the conference like to assist with problems that you may have during the conference. Besides, please note that a notebook is equipped with an LCD projector for every session room. Each speaker must bring his/her own **USB memory stick** for transferring the PPT file to the notebook setup at each session. **No overhead projectors** will be provided. Please arrive at your session early so that you have time to test the connection to the projector and know the session chair and colleagues going to present at this session.
