Abstract

Please note that the Proceedings would directly produce your paper that you submitted. Hence, please follow this style guild and instruction carefully. Your papers should be prepared in conformity with this instruction sheet, and use standard A4 paper size for your submission. No matter abstracts (1-2 pages) or full papers (no more than 8 pages) are all welcome. The main content should be in ten-point type and the Times New Roman font. To facilitate our double-blind review process, the author must submit his/her paper (or abstract) with related information through the website system. The author must upload the file (your abstract or full paper) in PDF or MS word DOC format.

If you submit an abstract paper, there are four parts for your abstract. They are **Paper Title**, **Author Information**, **Abstract** for briefly describing your research motivation, background, method, results, and main possible contribution, and **3-5 Keywords**. When you choose submitting abstract, the maximal length is two pages. The paper size should be A4 (i.e. 21.0 centimeters [8.27 inches] by 29.69 centimeters [11.69 inches]) and the margins should be set to Word's default: top and bottom 2.54 centimeters (1.00 inches), right and left 3.17 centimeters (1.25 inches). Papers that deviate from these instructions may not be published. All submissions will go through blind review process. Notification of acceptance will be sent to the corresponding author within 4-6 weeks of submission receipt. When you are submitting the abstract, you only need to take care the title, authors, and your abstract with keywords as well as the below references (if you like to show them).

Keywords: Instruction, Style Guild for Authors, Paper Submission
