

Dear participants,

Greeting! Welcome to **ISCM-1**.

The committee of **2023 ISCM-1** would like to promote the participants' quality research, and thus invites the conference participants to submit their works to the special issues with the partnership to the *Journal of the Taiwan Institute of Chemical Engineers (JTICE)*, and *Journal of Chinese Chemical Society (JCCS)*, both SCI-indexed journals. On behalf of guest editor Prof. Chun-Hu Chen, we invite you to contribute article types of **Review/Mini Review article, original research article**, and possible **others** upon request, regarding carbon-based materials and their applications. If you are willing to contribute, please let us know your plan (i.e. titles and article types) at your earliest convenience. Please send your contact information to the guest editor: chunhu.chen@mail.nsysu.edu.tw

Please note that all manuscripts will be subjected to our peer-review process to meet the criteria of each journal. Further details can be found in the Author Guidelines of the official website of the journals. We welcome any questions or details you might want to ask in line with this invitation.

Looking forward to seeing your outstanding research!

Sincerely yours,

Chunhu Chen

A handwritten signature in blue ink, appearing to read "Chunhu Chen". The signature is fluid and cursive, with the first name "Chunhu" and the last name "Chen" clearly distinguishable.
